

USP PF __ Number __ Online Product Validation Protocol - Test Information

1. Testing Instructions

- You can start and stop testing at your convenience. Please complete all test scenarios.
- Items displayed with quotations indicate a link, button, characters that you need to type or features of the application.
- Do not type the quotes when asked to enter text.
- Do not type periods or commas inside of quotation marks when asked to enter text.
- Depending on the search criteria you enter, you may or may not return search results.
- If you receive an error message, please print it or write down the exact message on the screen.
- Be sure to assign consecutive numbers to your notes.
- Fill in all the fields in the configuration table (Tester, Status, Date, OS ...etc.)
- Be sure to print your name and sign your name.
- For every test step, indicate whether it passed, failed, or N/A with an "x" or a checkmark.
- If a test case or test step fails, make sure you enter the actual result in the comments field.

2. Supported Operating Systems & Browsers

Operating Systems
Win XP
Vista (32 bit)
Win 7 (32 bit)

Browsers
Internet Explorer 7.0
Internet Explorer 8.0

Abbr	Component	Pre-Condition(s)
LO	Browser/OS info	User needs to open the PF Online Login page
LI	Login	User needs to open the PF Online Login page

Welcome to USP-PF Online Validation Protocol

CASE ID	STEP	Action	Expected Result	Pass	Fail	N/A	Comments (Actual result if different from expected result)
Login Pre-conditions: - USP PF Online Login page, must have Adobe Reader installed							
LI-0		O/S and Browser information	Record O/S and Browser information				
	1	Record O/S type and Internet Browser Type (i.e., Windows XP and Internet Explorer 7.0).	Record O/S: _____ Record Browser: _____				
LI-1		Open the Validation Protocol in multiple formats	The Validation Protocol displays in PDF and Microsoft Excel format				
	1	Go to http://www.usppf.com .	USP PF Online login page is displayed				
	2	Click the Validation Protocol link, located at the bottom of the Login page.	A page displays the validation protocol links.				
	3	Click the View PDF link and then click Open , if it does not open in the browser window.	The PDF version of the validation protocol will display.				
	4	Verify the version of the Validation Protocol is the current version for the current issue of USP-PF Online, for example USP-PF __ Number __					
	5	Click Back if the PDF opens in the browser window or X button in the upper-right corner of the Adobe Acrobat Reader application to close the PDF.	The previous page displays or the PDF closes.				
	6	Click the Download Spreadsheet link and then click Open .	An Excel version of the validation protocol will display.				
	7	Click the <input type="checkbox"/> button in the upper-right corner to close the Excel spreadsheet.	The Excel spreadsheet closes.				

Signature/Date: _____

CASE ID	STEP	Action	Expected Result	Pass	Fail	N/A	Comments (Actual result if different from expected result)
Registration pre-conditions: ONLY EXECUTE THIS SECTION IF A USER NAME AND PASSWORDS DOES NOT ALREADY EXIST							Navigate to www.usppf.com
RG-1		Register for online publication	User is registered and logged into usp pf				
	1	Click "Sign up for free access here."	Email registration page displays				
	2	Enter a valid email address. Then click sign in.	Personal information registration page displays				
	3	Enter valid information for the required fields: First Name: Last Name: Company: Country: Email Address: Password: Re-enter Your Password: Click the Register button	Confirmation page displays a message similar to: "An email has been sent to {your email address} with information on how to activate New Pharmacopeial Forum (PF) Online."				
	4	Open the email sent from the PF online website, from the email account entered during registration. Click the " Activate Me " link	Verification Page displays in the browser, with a message similar to: "Registration successfully completed."				
	5	Return to www.usppr.com. Enter the email address, and password that was registered in step 3. Click " Log on "	User logged in to usppf.com				
RG-2		Lost Password	Password reissued to user				
	1	Click "Forgot Your Password? Click here ."	Email entry page displays				
	2	Enter a valid email address. Then click sign in.	Personal information registration page displays				
	3	Open the email sent from the PF online website, from the email account entered during registration.	The User's password displays in the email text				

Signature/Date: _____

CASE ID	STEP	Action	Expected Result	Pass	Fail	N/A	Comments (Actual result if different from expected result)
Search Current Issue: Pre-conditions: Login to USP-PF __ Number __ Login page -Locate Search Current Issue:							
MP-2		My Profile	User profile displays				
	1	Click "My Profile" from the menu bar	Page displays with user's information				
QS-1		Keyword search using Search Current Issue:	Search Current Issue: displays search results				
	1	Type a valid keyword in the Search Current Issue: text box, for example the keyword "calcium"	Search Current Issue: textbox follows text indicating current PF volume: Search Current PF: __ Number __ .				
	2	Click GO .	All entries that match the keyword display. Search results line includes the highlighted search keyword followed by "in current issue". The keyword may not be in the title of the entry but contained within the document. For example, entries that contain "calcium" will be displayed.				
QS-2		Change search results sort order	Search results are sorted ascending				
	1	Repeat test scenario QS-1.					
	2	Click the  (up arrow) icon to change the sort order.	The search results are sorted in ascending order.				
QS-3		Test Enter button	Search Current Issue: displays search results				
	1	Type a valid keyword in the Search Current Issue: text box, for example the keyword "acid."					
	2	Press the Enter key.	All entries that match the keyword display.				
QS-4		Change search results sort order	Search results are sorted descending				
	1	Repeat test scenario QS-3.					
	2	Click the  (down arrow) icon to change the sort order.	Search results are sorted in descending order.				
QS-5		Display results links	Search results links display				
	1	Repeat test scenario QS-3.					
	2	Click a search results link.	The link content is displayed. The search keyword is highlighted.				

Signature/Date: _____

CASE ID	STEP	Action	Expected Result	Pass	Fail	N/A	Comments (Actual result if different from expected result)
QS-6		Search for empirical formulas	Empirical formula is displayed				
	1	Type a valid empirical formula in the Search Current ISSUE __ Number __ text box, for example "H2O"	The example given uses the letter "O" not the number zero.				
	2	Click GO .	All data entries in the current issue that contain the empirical formula are displayed. The keyword may not be in the title of the entry but contained within the document. For example entries that contain "H2O" will be displayed.				
QS-7		Display an empirical formula	Empirical formula is displayed				
	1	Repeat test scenario QS-6.					
	2	Select a search result.	The link content is displayed. The empirical formula is highlighted.				
QS-8		Search for chemical abstracts	Chemical abstract is displayed				
	1	Type a valid chemical abstract in the Search Current Issue: __ Number __ text box, for example "164579-32-2"					
	2	Click GO .	All entries that match the chemical abstract display.				
QS-9		Display chemical abstract	Chemical abstract is displayed				
	1	Repeat test scenario QS-8.					
	2	Select a search result.	The link content is displayed. The chemical abstract is highlighted.				
QS-10		Search using the Boolean (AND) search condition	Data entries containing both keywords are displayed.				
	1	In the Search Current Issue: text box, search using the Boolean AND, for example "chloride and color."	NOTE: Use AND only once.				
	2	Press the Enter key.	All entries that match the keywords display.				

Signature/Date: _____

CASE ID	STEP	Action	Expected Result	Pass	Fail	N/A	Comments (Actual result if different from expected result)
QS-11		Search using the Boolean (AND) search condition	Data entries containing the keyword display.				
	1	Repeat test scenario QS-10.					
	2	Select a search result.	The search result is displayed. The keywords are highlighted.				
QS-12		Search using the Boolean (OR) search condition	Data entries containing the keyword display.				
	1	In the Search Current Issue: text box, search using the Boolean OR, for example "extract or capsule."	NOTE: Use OR only once.				
	2	Click GO .	All data entries that match either keyword display.				
QS-13		Search using the Boolean search conditions AND/OR	Data entries containing the keyword display.				
	1	In the Search Current Issue: text box, search using the Boolean AND, for example "salt and syrup or capsule."					
	2	Press the Enter key.	Error message displays stating, "Only one search operator (AND, OR, NEAR, ~) is permitted."				
QS-14		Search using the Phonetic (~) search condition	Use the Tilda (~) to search when unsure of the spelling of a word. Retrieved are documents that sound similar to the keyword searched.				
	1	Type ~ at the beginning of a keyword in the Search Current Issue: text box, for example "~carban".					
	2	Click GO .	All data entries that include words that sound similar to the keyword display. For example entries that contain words that sound similar to "carbon" are displayed.				

Signature/Date: _____

CASE ID	STEP	Action	Expected Result	Pass	Fail	N/A	Comments (Actual result if different from expected result)
QS-15		Search using the Wildcard (*) search condition	Wildcard search conditions increase the scope of a search. The "*" - represents any number of consecutive alphanumeric characters, including, one character, several characters, or no character at the given position in the word.				
	1	Type a valid partial keyword in the Search Current Issue: text box, for example "chlor*."					
	2	Click GO .	All entries that contain words similar to the keyword display. For example, entries that contain the letters chlor*, like "chloride" display.				
QS-16		Search using the Wildcard (?) search condition	The "?" Wildcard symbol - represents a single character at a given position in the word.				
	1	Type a valid partial keyword in the Search Current Issue: text box, for example "lind?ne."					
	2	Click GO .	All entries that contain words similar to the keyword display. For example, entries that contain the word "lind?ne," display.				
QS-17		Search using the Wildcard (? and *) search conditions	Wildcard symbols can be used together.				
	1	Type a valid partial keyword in the Search Current Issue: text box, for example "c?rb*."					
	2	Click GO .	All entries that contain words similar to the keyword display. For example, entries that contain the word c?rb, like "Carbon" will be displayed.				
QS-18		Display search result using Wildcard search conditions	Data entries containing the keyword display.				
	1	Repeat test scenario QS-17.					
	2	Select a search result.	Search result displays, keyword is highlighted.				

Signature/Date: _____

CASE ID	STEP	Action	Expected Result	Pass	Fail	N/A	Comments (Actual result if different from expected result)
QS-19		Search using the Boolean & Wildcard conditions	Data entries containing both keywords display.				
	1	Type a valid keyword in the Search Current Issue: text box using the Boolean and Wildcard search conditions, for example "oral and tab*."					
	2	Press the Enter key.	All entries that contain both keywords or words similar to the keywords display. For example entries that contain both "oral and tablets" display.				
QS-20		Search using the Phonetic (~), Boolean, & Wildcard search conditions	An error message is displayed				
	1	Type a valid keyword in the Search Current Issue: text box using the Phonetic, Boolean and Wildcard search conditions, for example "~asprin AND caps*."					
	2	Click GO .	An error message is displayed stating: Please use only one search term in phonetic (soundex) searches.				
QS-22		Test Go button without entering any keyword(s).	No search results are displayed				
	1	Click "GO" without entering any keyword. Be sure that the Search Current Issue: text box is blank.	Error message displays stating, "Please enter a valid search term (three or more characters)."				
QS-23		User test search for non-existing keywords	No search results are displayed				
	1	Type an invalid keyword in the Search Current Issue: text box, for example "palette."	Search results are displayed.				
	2	Click GO .	Error message displays stating: "Sorry. No documents found."				

Signature/Date: _____

CASE ID	STEP	Action	Expected Result	Pass	Fail	N/A	Comments (Actual result if different from expected result)
Advanced Search Pre-conditions: <ul style="list-style-type: none"> - Login to USP-PF __ Number __ , see LI-3 for more information - Click the Advanced Search link located on the toolbar on the right - NOTE: Depending on the search criteria you enter search results may not be found. 							
Search By Monograph							
AS-1		Search by monograph volume field	Search of monograph volume field displays search results				
	1	In the Volume field select a volume, for example "31."					
	2	Type a valid keyword in the Monograph Section field, for example "Water."					
	3	Press the Enter key.	All data entries that match the selected volume and monograph section are displayed.				
AS-2		Change search results sort order	Search results are sorted ascending				
	1	Repeat test scenario AS-1.					
	2	Click the  (up arrow) icon to change the sort order.	The search results are sorted in ascending order.				
AS-3		Display results links	Search results links display				
	1	Repeat test scenario AS-1.					
	2	Click a search results link.	The link content is displayed.				
AS-4		Test Reset button					
	1	Select a field or type a valid keyword in any search field.					
	2	Click Reset .	All fields are reset and displayed as blank, except Results/Page which displays 25.				
AS-5		Search by monograph PF section field	Search of monograph PF section field displays search results				
	1	Select a section from the PF Section field, for example "Interim Revision Announcement."					
	2	Specify one additional search criteria, for example "6" in the Issue field.					
	3	Click GO .	All data entries that match the selected PF Section and Issue are displayed.				
AS-6		Display results links	Search results links display				
	1	Repeat test scenario AS-5.					

Signature/Date: _____

CASE ID	STEP	Action	Expected Result	Pass	Fail	N/A	Comments (Actual result if different from expected result)
	2	Click a search results link.	The link content is displayed.				
AS-7		Search by monograph document type field	Search of monograph document type field displays search results				
	1	Type a valid keyword in the Definition field, for example "solution."					
	2	Specify one additional search criteria, for example "6" in the Issue field.					
	3	Click GO .	All data entries that match the Definition and other search criteria are displayed.				
AS-8		Change search results sort order	Search results are sorted descending				
	1	Repeat test scenario AS-7.					
	2	Click the  (down arrow) icon to change the sort order.	Search results are sorted in descending order.				
AS-9		Search monographs for empirical formula	Empirical formula displays				
	1	Type a valid empirical formula in the Full Text field for example "C27H29NO11."	The example given uses the letter "O" not the number zero.				
	2	Press the Enter key.	Data entries that contain the empirical formula and other search criteria are displayed. The search keywords may not be in the title of the entry but contained within the document.				
AS-10		Display results links	Search results links display				
	1	Repeat test scenario AS-9.					
	2	Click a search results link.	The link content is displayed. The search keyword is highlighted.				
AS-11		Search by monograph dosage form field	Search of monograph dosage form field displays search results				
	1	Select a section from the Dosage Form field, for example "Oral Solid."					
	2	Type a valid keyword in the Full Text field, for example "amoxicillin."					
	3	Click GO .	Data entries that match the selected dosage form and keyword search criteria are displayed. The keyword may not be in the title of the entry but contained within the document.				
AS-12		Display results links in a new window	Search results links display in a new window				
	1	Repeat test scenario AS-11.					
	2	Click the  icon.	The search results are displayed in a new window.				
	3	Click the  button at the top of the page to close the new search results window.	The search results window is closed.				

Signature/Date: _____

CASE ID	STEP	Action	Expected Result	Pass	Fail	N/A	Comments (Actual result if different from expected result)
AS-12-A		Display Monograph in a new window	Monograph display in a new window				
	1	Repeat test scenario AS-11. Click on a search result.	monograph displays				
	2	Click the  icon.	The monograph displayed in a new window.				
	3	Click the  button at the top of the page to close the new window.	The search results window is closed.				
AS-12-B		Toggle Highlighted search terms	Highlighted terms are toggled on/off				
	1	Repeat test scenario AS-11. Click on a search result.	monograph displays				
	2	Click the  icon .	The Highlighted search terms are toggled off				
	3	Click the  icon again.	The Highlighted search terms are toggled on				
AS-12-C		Email Comments	Auxiliary information displays				
	1	From advanced search, Select" USP Monograph" for document type. Select a monograph with auxillary information, for example "Amiodarone Hydrochloride". Click "Go".	monograph search results displaydisplays				
	2	Click on the monograph from the results list.	The Highlighted search terms are toggled off				
	3	Click the  icon.	A new window displays with Email contact information				
AS-13		Search monographs for chemical abstract	Chemical abstract displays				
	1	Type a valid chemical abstract in the Full Text field, for example "826-39-1"					
	2	Click GO .	Data entries that contain the chemical abstract will be displayed. The keyword may not be in the title of the entry but contained within the document. For example, all entries that contain the chemical abstract "124-04-9" will be displayed.				
	1	Repeat test scenario AS-13.					
	2	Click a search results link.	The link content is displayed. The search keyword is highlighted.				
	3	Click the  button to synchronize the Table of Contents .	Table of Contents synchronizes and displays the physical location of the monograph in the publication.
